<p>UNDP SUD-08/GRL37 <i>Recovery and Development</i> [BN][SK][E][KN] [Gnd][CB] NP_GRL_3</p>	Capacity Building of the Sudan Judiciary	<ul style="list-style-type: none"> To build the capacity of the National Judicial Service Commission (NJSC) to deliver services in the Governance and Rule of Law sector based on judicial independence, impartiality, transparency, and international standards. To build the capacity of the Judiciary (at the central and state level) to implement and integrate commitments to rule of law under the CPA through comprehensive judicial training and creating a pool of qualified national trainers and appropriate training curriculum. To ensure the sustainability of the transfer of knowledge through the establishment of the National Legal Training and Resource Centre and the rehabilitation of the Judiciary's existing training facility. 	<ul style="list-style-type: none"> Providing specialized Training to the NJSC staff in terms of building their Judicial and financial management capacity. Providing technical support in terms of workshops to be conducted and study tours organized in order to help NJSC drafts and adopts an action plan outlining its course of work. Training of Judges at the central and state level in modern legal analysis and application, constitutional law, international human rights and comparative international experiences along with Sudanese cultural values and traditions. Building up the Capacity of Local Trainers by conducting Training of Trainers internationally to selected judges. Development and compilation of Training curriculum and materials. Ensuring the sustainability of the transfer of knowledge through the establishment of the National Legal Training and Resource Centre. Supporting the availability of Judicial services all over Sudan by construction of courthouses in selected states. 	<ul style="list-style-type: none"> NJSC positioned to build the Judiciary's independence, impartiality, and transparency. Enhancement of the Judiciary's independence; building the knowledgebase of judges; and, empowering the judiciary to effectively and fairly apply the law and deliver justice to the people. The Judiciary currently lacks adequate infrastructure to institutionalize training and continuing education for sitting and future judges. By establishing the National Legal Training & Resource Centre, and rehabilitating the Judiciary's existing training facility, this Project will ensure the sustainability of the transfer of knowledge. This Project will empower judges, through in-depth training, to build the capacity of the Judiciary to implement and integrate commitments to the Rule of Law Sector under the CPA. Courts can only function if courthouses are functional. Recognizing the disrepair of certain court facilities (and the complete absence of such facilities in some communities), this Project will promote decentralisation and enhance the capacity of the Judiciary to effectively deliver services by construction of courthouses in selected states. 	<p>The National Judiciary (Northern states).</p> <p>Khartoum, S.Kordofan (Talodi), Kassala (Wad Elhelew), Blue Nile (Rosseris)</p>	<p>The Judiciary in collaboration with UNDP, International training institute, Management Consultants, Construction Contractors</p>	<p>\$295,000</p> <p>- [NP] - [D] - [S] \$190,000 [E] \$93,000 [SK] - [A] \$295,000 [BN] \$7,860,330 [KN]</p>
